

NUOVA SIMONELLI / ITALY

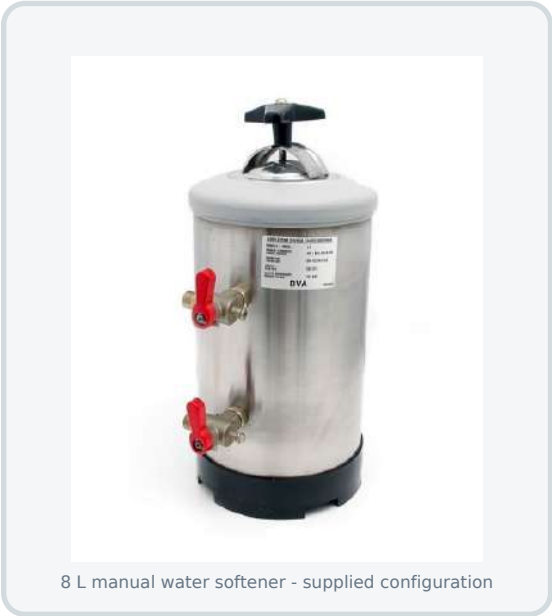

Water Softener 8 L

Manual Water Treatment Unit

8 L capacity | Manual operation | Made in Italy

PRODUCT OVERVIEW

A compact manual water softener designed to help protect commercial coffee equipment from scale buildup. Its 8 L vessel, stainless-steel construction and manual valve arrangement support practical water treatment and routine regeneration in professional espresso and hot-beverage installations.

8 L manual water softener - supplied configuration

KEY SPECIFICATIONS

Brand	Nuova Simonelli
Product Type	Manual water softener
Operation	Manual
Nominal Capacity	8 L
Vessel	Stainless-steel body
Valve Control	Manual inlet and outlet valves
Application	Commercial coffee equipment water treatment
Installation	Compact upright unit
Power Requirement	None - manual operation
Maintenance	Periodic regeneration/service required
Country of Origin	Italy

KEY FEATURES

- The 8 L capacity suits compact commercial coffee installations.
- Water softening helps reduce scale-causing mineral hardness.
- Manual valves provide straightforward service control.
- The stainless-steel vessel supports commercial durability.

TYPICAL APPLICATIONS

- Espresso machines in cafes, restaurants and hotels.
- Coffee brewers and compatible hot-beverage equipment.
- Sites requiring compact, manually regenerated water treatment.

PRODUCT NOTE

Connection size, operating pressure, salt quantity and flow rate were not supplied. Confirm these values before installation; regeneration intervals depend on inlet-water hardness and daily water consumption.
