Commercial Beverage Performance

Independent bowl cooling and mixing allows two beverage flavors to remain available at the same time. Suitable for slush drinks and cold fruit juice dispensing, with a low-energy night mode for product storage.

Product Features & Technical Details

SLUSH Twin Light Black / Yellow | Models SLUSH24.BL and SLUSH24.YL

Key Features

- Two 12 L bowls provide 24 L total beverage capacity.
- Recommended sugar ratio of the product mix: 12% to 17%.
- Can also be used as a cold fruit juice dispenser.
- Bowls can operate independently for both cooling and mixing, keeping multiple beverages available at the same time.
- Night-mode operation supports product storage with very low energy consumption.
- Polycarbonate bowls are food grade and vandal-resistant.
- Water-level indicators incorporated into the drip trays show when the trays should be emptied.
