Product Features & Technical Details

SLUSH Twin Light Inox | Model SLUSH24.IL

Key Features

- Twin 12 L bowls provide a total capacity of 24 L for commercial beverage service.
- Suitable for slush drinks and cold fruit juice dispensing.
- Recommended sugar ratio of the product mix: 12% to 17%.
- Bowls can operate independently in both cooling and mixing modes, allowing different beverages to be served at the same time.
- Night-mode operation supports product storage with very low energy consumption.
- Polycarbonate bowls are vandal-resistant and food grade.
- Water-level indicators are integrated into the drip trays to show when the trays should be emptied.
